

# KNIGHTS OF COLUMBUS, G

All capitals become the largest cities of nations.

London is the greatest city of England. Why? Because it is the capital.

Berlin is the largest city of Germany. Why? Because it is the capital.

Paris is the largest city of France. Why? Because it is the capital.

St. Petersburg is the largest city of Russia. Why? Because it is the capital.

The same rule holds good in all the great nations of the earth.

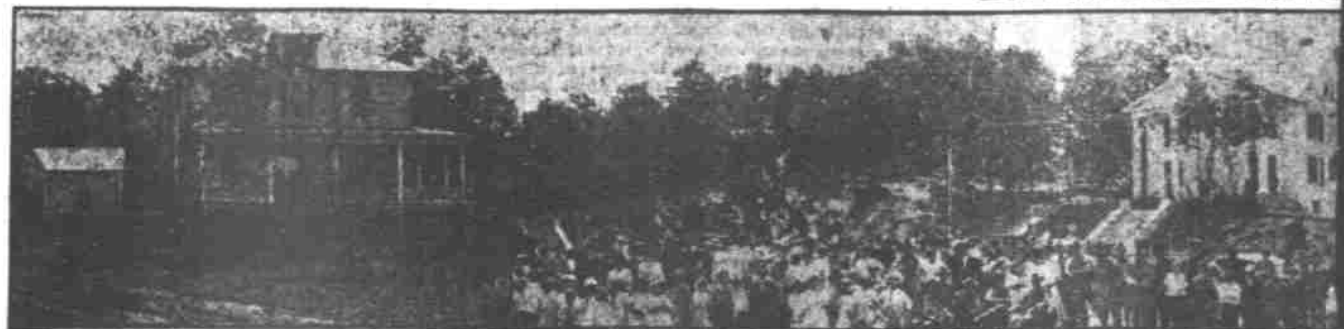

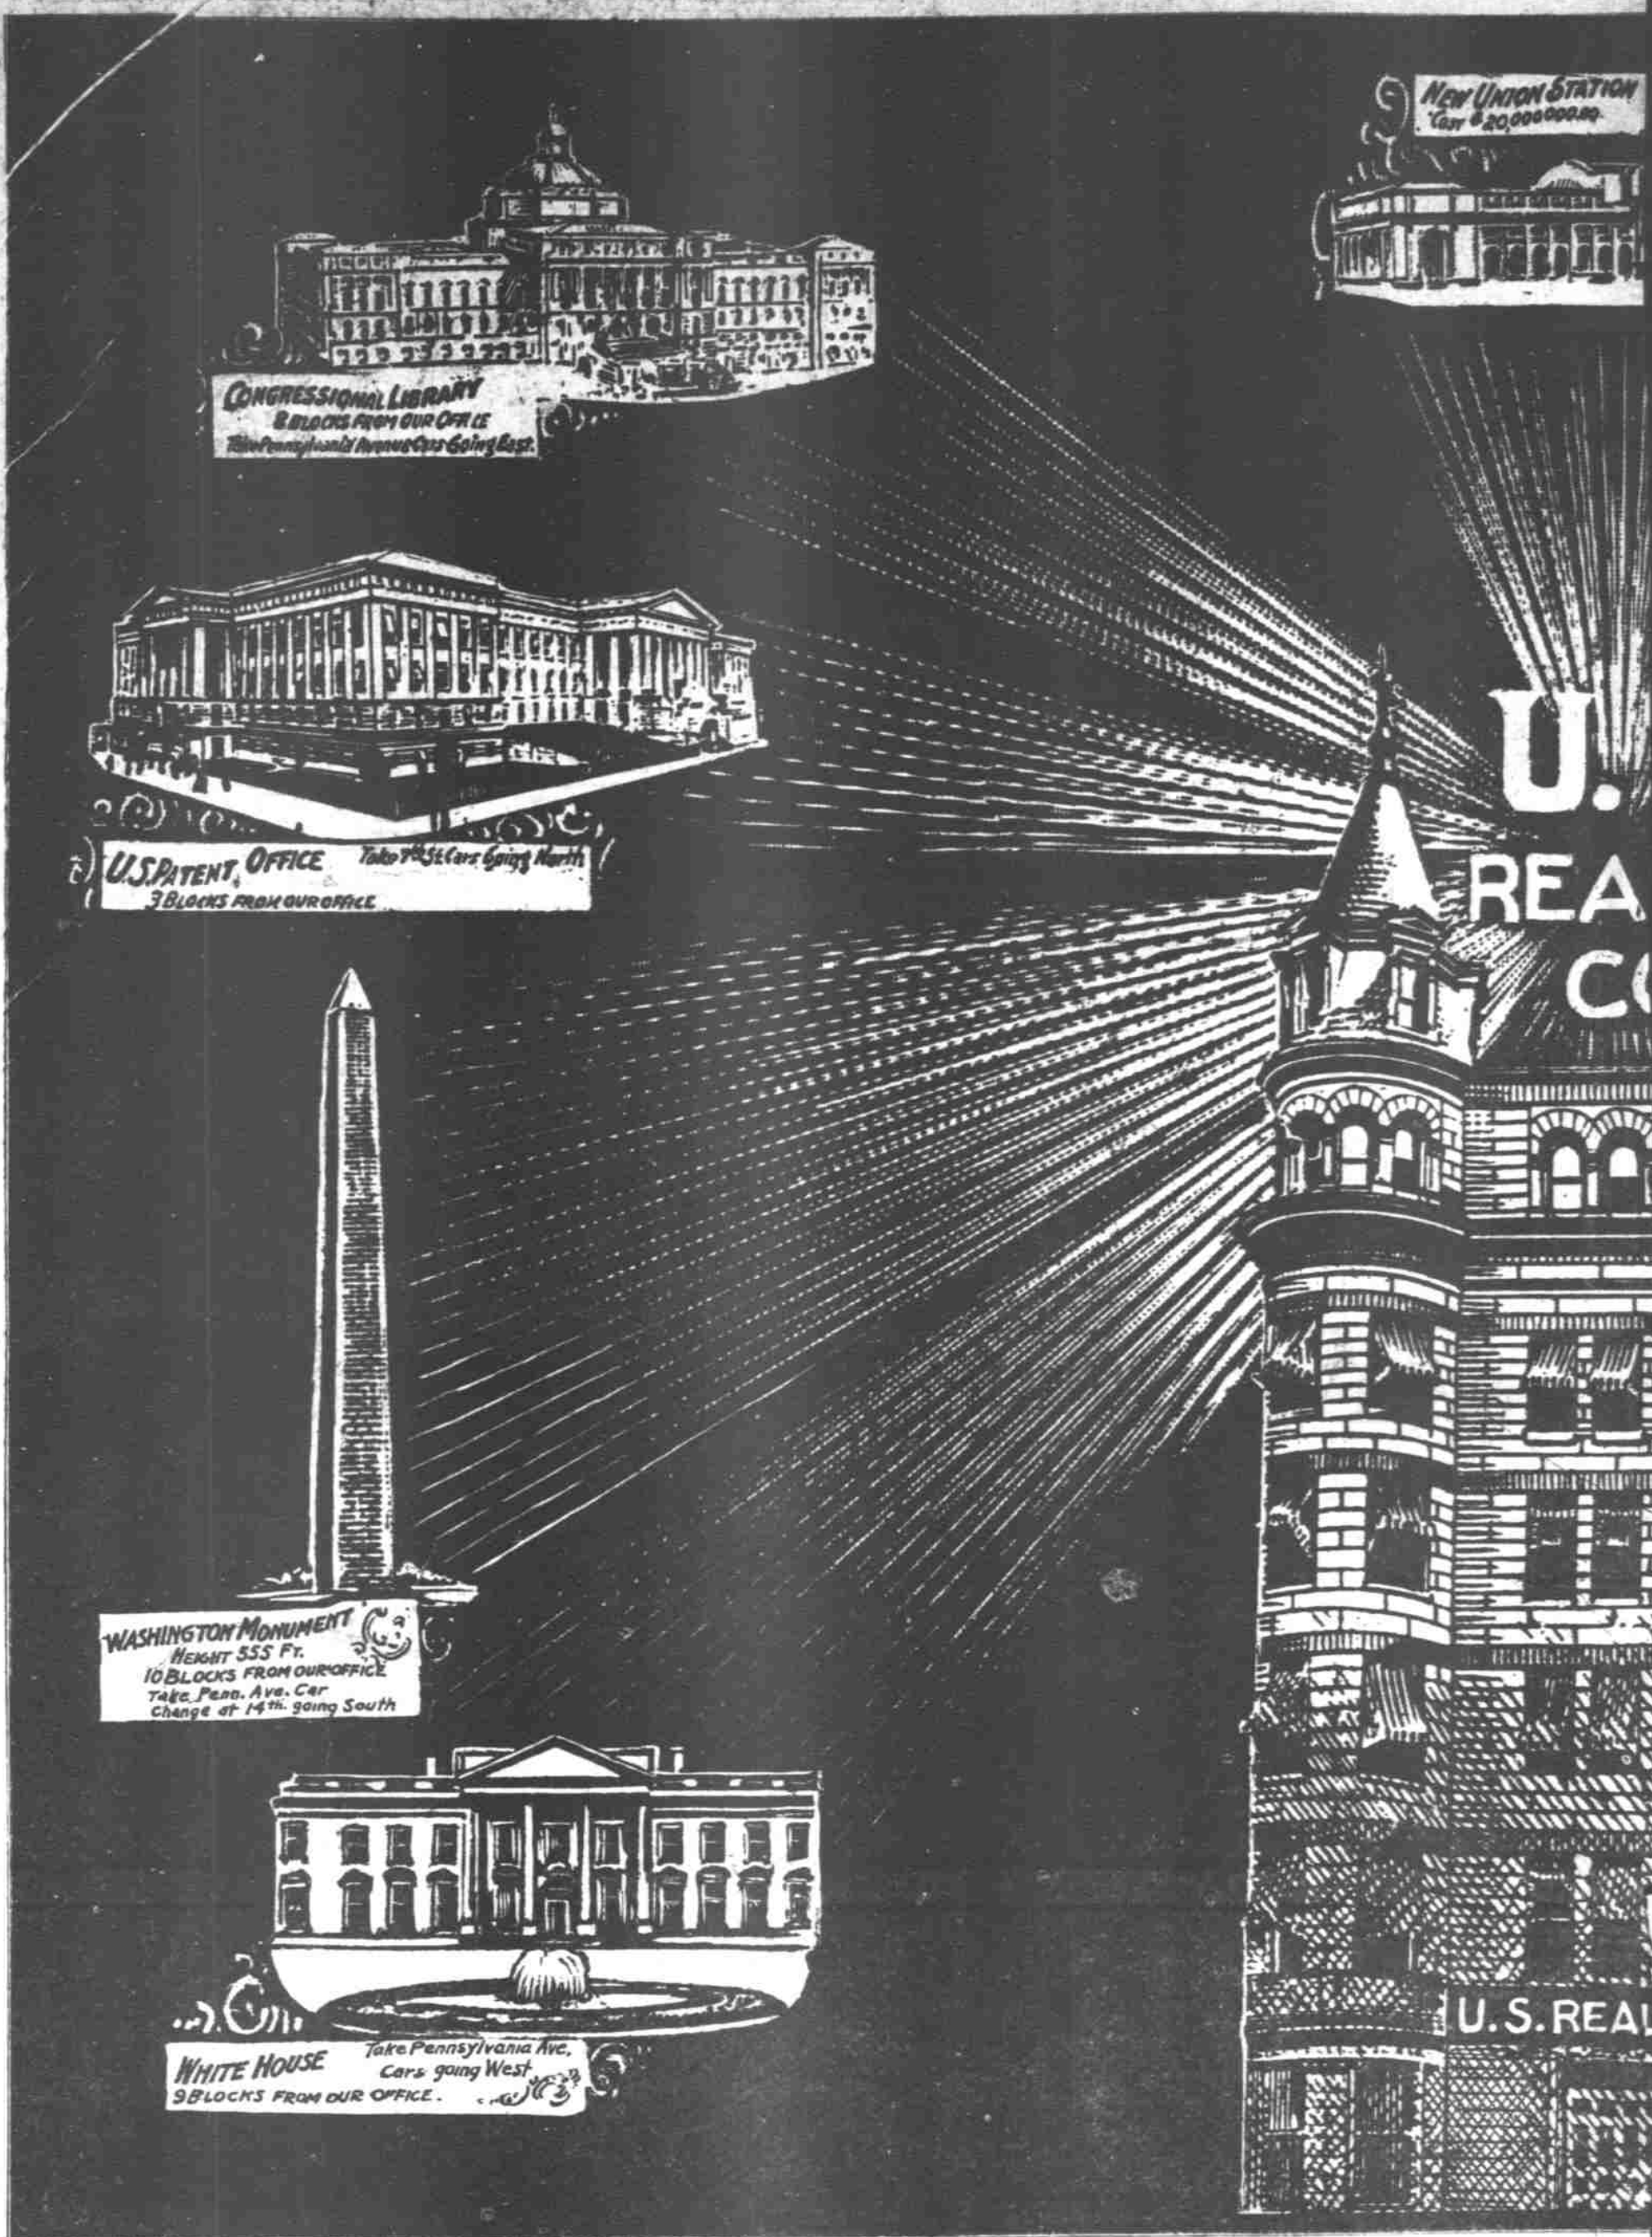

You are a component part of the 90,000,000 people of this grand republic, and are contributing to the progress and support of this nation's capital. It is your capital, and you have an interest in its progress and welfare.

With all the other citizens of the United States you pay one-half the taxes of the District of Columbia, and therefore you are giving every possible aid in making Washington the largest, most prosperous, and most beautiful city of the world.

And as you are contributing to the upbuilding of this great and beautiful city, why not share in the profits and why not take advantage of the great opportunity offered you and make a personal inspection of Randle Highlands while you are in Washington?

## Knights of Columbus Are Invited to Randle Highlands

Toward which the city is rapidly approaching.
